

Gentlemen and Gentlewomen,
I respectfully ask you to reject the petition by the NAB. The petition number is 04-160. It is ridiculous to think that I can't hear my local traffic and weather on the transmission method of MY CHOOSING. I am sick and tired of more commercials than music, traffic, and weather combined. That is why I made a switch to satellite radio. Don't allow the NAQB to tread upon my freedom to choose where my local programming comes from.

Thank you,
-Danny Dutch
